2024-2026 Grow Your Own High School Education and Training

Program Description PS3014 - Program Narrative

Please include complete responses for each question below.

A. Summary of Program

1. Provide an overview of the program to be implemented with grant funds. Include the overall mission and specific needs of the organization. Describe how the Grow Your Own grant will address the LEA's teacher pipeline needs.

This opportunity will allow KISD and the community to develop a regional talent pipeline of future educators. KISD is a small district on the outskirts of Fort Worth. Attracting teachers can be challenging due to higher and more competitive compensation packages found in larger districts surrounding us. These funds will allow us to identify students interested in the field of teaching, improve recruitment in the Education and Training program, and further build interest in the teaching profession with enhanced field site experience, exposure and participation in Texas Association of Future Educators activities and competitions, and access to dual credit courses that align to the state core curriculum. Grant funds will provide professional development and program growth for Education and Training.

KISD currently faces a teacher turnover rate of 32%, well above the state average. To combat this turnover and ensure the longevity of our teaching staff, it is imperative that we "Grow Our Own" teachers. By investing in students who have been educated within our campuses and have a deep understanding of our community and culture, we can create a sustainable solution to our staffing challenges. Our strategy involves hiring high school graduates from the Education and Training program as educational aides as they pursue bachelor's degrees. Furthermore, former students who earn teaching credentials will be given priority status in the interview process for open teaching positions.

B. Qualifications and Experience for Key Personnel

1. Outline the required qualifications and experience for primary project personnel and any external consultants projected to be involved in the implementation and delivery of the program. Include whether the position is existing or proposed. - Proposed: College/Career Counselor – advise students regarding college/career readiness, support post-secondary goal setting and support attainment of industry based certification
- Melissa Springfield, Education & Training teacher, (existing) – teach E&T courses and guide students through completion of program of study. KHS will propose the dual credit course options next school year (24-25) and then full implementation of a dual credit program will be in place for the 25-26 school

C. Goals, Objectives and Strategies

1. Describe the major goals/objectives of the proposed program. What activities/strategies will be implemented to meet those goals/objectives? Include a description of the talent management strategy including your LEA's approach to recruiting, hiring, and retaining qualified teachers, related to those goals/objectives.

Education and Training field site teacher stipend(s) disbursed within the first, second, or both years of the grant timeline (specify accordingly) and no earlier than Fall 2024

Our budget allocation is geared towards facilitating the successful execution of the program throughout the two-year grant period, with a keen focus on resource optimization and outcome maximization. As the program evolves, adjustments to the budget will be made in response to shifting needs and priorities, guided by ongoing monitoring and evaluation of program efficacy. Collaboration with stakeholders and community partners will play a crucial role in identifying avenues for cost reduction and resource enhancement. The proposed budget encompasses various aspects such as staffing, supplies, materials, and travel expenses. Specifically, funds are allocated for payroll costs, including stipends for Education and Training (E&T) program educators, along with provisions for substitute coverage. Additionally, resources are earmarked for supplies and materials essential for enriching student learning experiences, as well as for covering travel expenses associated with student transportation to field sites and participation in Career and Technical Student Organization (CTSO) events. Overall, the budget proposal is aligned with the program's objectives and aims to address its diverse needs effectively.

2. c. Implementation costs, limited to: i. Student transportation to and from E&T field sites for Instructional Practices and/or Practicum courses ii. CTSO event/conference participation, membership fees, and travel costs iii. Substitute coverage for teachers to participate in implementation supports and CTSO activities d.
