### Program Description PS3014 - Program Narrative

Please include complete responses for each question below.

#### A. Summary of Program

1. Provide an overview of the program to be implemented with grant funds. Include the overall mission and specific needs of the organization. Describe how the Grow Your Own grant will address the LEA's teacher pipeline needs.

The program plan will consist of engaging students early at the middle school level with career exploration curriculum focused on becoming an educator and experiences that develop interest in the field of teaching. The plan will increase the number students choosing the teaching and training pathway as they enter their high school years. Opportunities to further develop their interest and leadership skills will be through participation in CTSO events and conferences. The teaching and training teacher and site-based teachers will receive a 2-year stipend to support and expand the program. CTSO conference participation, membership fees and travel costs will also be supplemented with the grant funds.

Our mission is to grow our own educators who will return to their hometown after college and fill open teaching positions. Being a small very rural school and community the applicant pool for open positions is typically few and our district relies on our high school graduates to one day return to their hometown to fill vacancies. Family, community and salary are the determining factors for returning to small rural schools as an educator. The program and resources will help establish a pipeline of educators willing to return to the rural communities.

#### B. Qualifications and Experience for Key Personnel

1. Outline the required qualifications and experience for primary project personnel and any external consultants projected to be involved in the implementation and delivery of the program. Include whether the position is existing or proposed. Include each of the following individuals and a description of each role: the LEA's grant manager, LEA leaders involved in program implementation, the campus principals, college/career counselors, and teachers of participating Education and Training high schools, and any other personnel responsible for implementation the grant.

Our current education and training teacher, Mrs. Sally Manney, has held a teaching certification for 4 years and 2023-24 is the third consecutive year of her instructing the teaching and training pathway courses. She is a perfect role model of a grow our own teacher after graduating college she returned to teach in her hometown. Her enthusiasm for the teaching and training pathway is always positive, she activity encourages students to choose the education pathway and has grown the student enrollment substantially in the last 2 years.

#### C. Goals, Objectives and Strategies

1. Describe the major goals/objectives of the proposed program. What activities/strategies will be implemented to meet those goals/objectives? Include a description of the talent management strategy including your LEA's approach to recruiting, hiring, and retaining qualified teachers, related to those goals/objectives.

Our goals are objectives are to reduce the teacher shortage and increase the pool of applicants by providing engaging career exploration, hands-on experiences and promoting enthusiasm in a career in education.

Our activities and strategies as a district will be to provide in-depth career exploration into the teaching field beginning at the middle school with 7th and 8th grade students. Our college and career counselor will host a student/parent night in the spring of their 8th grade year and educate the parents and students on the teaching as a career and benefits of choosing the education and training course pathway as they enter high school. We will assist students with college applications into post-secondary schools for financial aid and scholarships specifically for education programs.

A talent management strategy in education, particularly focused on recruiting, hiring, and retaining qualified teachers, is crucial for addressing the lack of interest in teaching as a career. Our approach to recruiting, hiring, and retaining teachers would include media outreach for available positions through website and social media postings, offer a convenient application process, interview processes and timely feedback on the hiring process, retain qualified teachers through professional development opportunities, mentorship programs, and stipends for retention.

#### E. Budget Narrative

1. Describe how the proposed budget will meet the needs and goals of the program, including for staffing, supplies and materials, contracts, travel, etc. If applicable, include a high-level snapshot of funds currently allocated to similar programs. Include a short narrative describing how adjustments will be made in the future to meet needs. This question has been broken into two sections. These expenditures will be adjusted based on student to site teacher need ratio. CTSO conference travel expenses include membership fees, registration fees and allowable meals, CTSO conferences will provide enrichment opportunities for students to explore the career of teaching and learn leadership roles. Adjustments to the program and budget will be reviewed regularly as follow-up feedback from participants is received and opportunities for improvement are identified. The current allocated funds total approximately \$69,000 for our education and training program including CTSO allocations.

2. c. Implementation costs, limited to: i. Student transportation to and from E&T field sites for Instructional Practices and/or Practicum courses ii.
