Performance and Evaluation Measures (Focus Area 1)

Describe the performance measures identified for this program which are related to student outcomes and are consistent with the purpose of the program. Include the tools used to measure performance, as well as the processes that will be used to ensure the effectiveness of project objectives and strategies.

The 12-15 students enrolled in Focus Area 1 will participate in and receive course credit at the duration of Welding I(PEIMS Service ID: #13032300). Students will complete the welding course by August 31, 2023 and receive credit on their transcript. Students will be prepared to continue with Welding II during the 2023-2024 school year. Formative and summative assessments will be conducted during the 6 week course period. Instructors will use these assignments to instruct students, determine where intervention is needed, and evaluate TEKS mastery for course credit. Student learning objectives and outcomes will also be measured based on student completion of hands-on learning projects and skill demonstration in the welding lab.

Performance and Evaluation Measures (Focus Area 2)

Describe the performance measures identified for this program which are related to student outcomes and are consistent with the purpose of the program. Include the tools used to measure performance, as well as the processes that will be used to ensure the effectiveness of project objectives and strategies.

Perryton ISD will enroll 12-15 students in Focus Area 2 and students will receive credit at the duration of the 6 week program for Practicum in Manufacturing (PEIMS Service ID: #13033000). Students will complete the course by August 31, 2023. Instructors will help students facilitate projects with local businesses and students will complete hands-on, work-based learning projects. Instructors and local community members representing the businesses participating will determine how effective student work is. They will also gauge the readiness of students and their welding skill set. Competency based evaluations will also be used as part of training to record student ability and capability to perform various tasks on job sites. Both instructors will meet with each student to identify areas of strengths and where the student could improve.

Amendment #

Program Requirements

1a. Needs Assessment (Focus Area 1)

Perryton ISD has a large number of students interested in welding. Across our district welding program, Perryton ISD accomodates 186 students into an 8 period school day, with 1 instructor. Many students are not able to take welding courses their freshman year because of limited spots available. It is also more difficult to work with such a large number of students and get them certified with an AWS Certified Welder certification. If we are able to facilitate 12-15 students in the summer program, this is at least one class load that instructors can manage outside of the regular school year and help students get ahead and get their certificate. Our CTE program also has a limited budget throughout the year to work with. If more funding is available to work with students during the summer so they can learn how to welding more efficiently with material that might not be budgeted for with the general school year welding budget, students have a better opportunity to be served.

1b. Needs Assessment (Focus Area 2)

Perryton ISD also struggles with large class loads when students get into more advanced welding courses. Our advanced welding instructor is only on campus for half a day, making it even more difficult to manage classes and get interested students into upper level classes. Perryton ISD covers a rural demographic area. There are many welding career opportunities in the surrounding areas. If we make work-based learning experience available to students, their chances of excelling in a career once they graduate high school, greatly improve. Like FA1, materials and supplies are limited during the school year because the budget allotted has to be spread between multiple class periods and students. If instructors can use money more readily available to teach students, their experience and skill level will also progress.

Appendix I: Amendment Description and Purpose (leave this section blank when completing the initial application for funding)

An amendment must be submitted when the program plan or budget is altered for the reasons described in the "When to Amend the Application" document posted on the <u>Administering a Grant</u> page. The following are required to be submitted for an amendment: (1) Page 1 of the application with updated contact information and current authorized official's signature and date, (2) Appendix I with changes identified and described, (3) all updated sections of the application or budget affected by the changes identified below, and, if applicable, (4) Amended Budget Request. Amendment Instructions with more details can be found on the last tab of the budget template.
